

Dear students,

A well-designed syllabus is an intrinsic tool for effectively managing a prescribed curriculum. It gives the students a clear understanding of our academic goals and it also guides our teachers for conducting classes effectively. **A syllabus provides a comprehensive picture of the pursuits of the students in that academic year.**

This complete work of the breakup of the Inter Nobilean Syllabus is done by our subject experts from all the units of De Nobili Schools. **Our team of dedicated teachers have painstakingly studied all the text books and have prepared the syllabi in accordance to CISCE guidelines.** This comprehensive academic plan has been designed with Project Works, Assignments and also Assessment Patterns. I appreciate their hard work and bow down my head with gratitude. I am convinced that this effort on our part will go a long way in imparting education to our students in a more holistic manner.

With warm regards,

**Fr. Michael P. Fernandes S.J.**  
**Director**  
**De Nobili Schools**

*"In case of any changes / corrections in the prescribed syllabus due to unforeseen and unavoidable circumstances, prior intimation will be given to the students."*
